

Command

string

description

```
setuptools._distutils.command.install  
_egg_info.install_egg_info
```

The diagram illustrates attribute access from the `install_egg_info` method. A solid blue arrow points from the `install_egg_info` method to the `Command` object, representing the `self` argument. A dashed purple arrow points from the `install_egg_info` method to the `string` object, representing the `description` attribute access.
