

Command

string

description

```
setuptools._distutils.command.install  
_scripts.install_scripts
```

The diagram illustrates attribute access from a specific module path to two objects. A grey box at the bottom contains the text 'setuptools._distutils.command.install_scripts'. A solid blue arrow points from this box to a white box labeled 'Command'. A dashed purple arrow points from the same box to a white box labeled 'string', with the word 'description' written next to the arrow's shaft.
